Prepared by the Bureau of Local Assessment

Revised November 2002

- Page 10 Revised March 2005

See New Class Codes 910 through 929

INTRODUCTION

These Guidelines are intended to assist the Board of Assessors in determining the proper classification of property according to its use.

The coding structure has three digit level of detail. The first digit indicates a major classification. The second digit is a major division and the third digit is a subdivision, both within the major classification of property.

If the guidelines do not include a three digit code for a specific property use, the assessor should use the code that most appropriately identifies the property's use. For example, the assessors would use codes 321-326 to classify a retail condominium, based on the use of the property.

MULTIPLE-USE PROPERTY

CODE 0

Real property used or held for use for more than one purpose, including parcels with multiple detached or attached buildings, are considered multiple-use property for classification purposes. Any necessary related land on a multiple-use property must be allocated among the classes of property within the building.

The first digit of multiple-use property is always a zero (0). The second and third digits are the major classification of the property represented. The digits following zero (0) are listed in the order of major importance.

Examples

Since the guidelines for coding multiple-use property are unique, several specific examples of how to identify such property with these codes are listed here. These are only examples and do not represent all possible multiple use codes.

013 Multiple-Use, primarily Residential

A building with a retail store on the first floor, apartments on the upper floors, and a major portion of the related land is reserved for tenant parking.

031 Multiple-Use, primarily Commercial

A building with retail use on the first floor, office space on the second and third floors, apartments on the fourth floor and a major portion of the related land is allocated for commercial use.

037 Multiple-Use, primarily Commercial with part of land designated under Chapter 61A use

A farm property with land and buildings predominantly used for commercial farming with part of land (at least 5 acres) designated horticulture/agricultural under Chapter 61A.

021 Multiple-Use, primarily Open Space

- A. Sale between members of the same family

- C. Sale of commercial or industrial real property which includes machinery, equipment, inventories or "good will"

- *P. Sale of property with a change in use after the sale
- Q. Sale of property which includes both a trade of property and cash for the property conveyed
- R. Sale of property which has been sold more than once in the same year. Only the last sale is used for analysis purposes.

If a community is not using a time-adjustment, column can be left blank.

Note:

In the example above, the original sale of \$225,000 is arms length since a vacant piece of land (class 130) sold and the prior FY assessed value reflects this (\$220,000). However, the same sale, when compared to the current FY assessed value of a single family home (\$475,000), becomes a non-arms length sale with the NAL code of "P". The usage class changes from a 130 to a 101.
